VOLUME 6.

MARYVILLE, MISSOURI, TUESDAY, MARCH 28, 1916.

NO. 256.

FOLK'S STATEMENT

FORMER GOVERNOR TELLS WHAT STATE NEEDS.

NO ANNOUNCEMENT YET

But Close Friends Believe He Will Enter Race for Governor in St. Joseph, April 15.

St. Louis, March 28.—Joseph W. Folk, former governor of Missouri, will seek the Democratic nomination for governor, open his campaign headquarters here next month, and make his first speech of the campaign at St. Joseph about April 15. This information was given out today by a close friend of Folk.

Friends of Senator James A. Reed, who also are in St. Louis, seemed much relieved when they learned the former governor was not going to contest the nomination for the United States senate. Some political wise-ones had intimated that Folk and Reed had entered into a political pact whereby one was to seek for senate honors and the other enter the gubernatorial race with mutual support. This is denied by friends of both.

Wager He'll Be Nominated.

Friends of Folk say he will resign as chief counsel for the interstate commerce commission, with its \$10,000 salary, after he makes his formal announcement. He will do his chief campaigning outside St. Louis, his advisers say. They thought he would carry at least 75 per cent of the dry counties and money was being wagered at his hotel that, if four entrants were in the race, Folk would be nominated.

Rumors were again current tonight that several of the nominees would withdraw if Folk entered. Statements that John M. Atkinson would be one of these to quit were denied by Atkinson in a statement issued from Jefferson City today. Atkinson says he will resign from the public utilities commission when he begins his active speaking campaign.

Folk would not come out flat footed and announce his intentions to become a candidate for governor. He said he would remain in St. Louis for several days looking over the field. He gave out a typewritten statement telling of his achievements as governor and thought that much constructive work was to be done in Missouri.

Interested in State Affairs.

In the typed interview he said: "I am, of course, interested in Missouri affairs, and shall, while here, talk over conditions with friends and announce any conclusion."

After reviewing his former administration, Folk outlined the laws Missouri needs. In a written statement he says in part:

"A new constitution is needed, breathing more of the spirit of the rights of man as well as protecting the rights of property."

"The short ballot principle should be adopted."

"The taxing system should be revised."

"The budget method of public expenditures should be adopted."

"The police and excise commission-

ers of the large cities now appointed by the governor should be appointed by some local authority in these cities but subject to removal by the governor for failing to enforce the laws. "The liquor interests should be compelled to obey the law the same as all other interests."

DOUGLAS PHILLIPS DIES

Succumbs to Long Illness This Morning—Funeral Services Wednesday Afternoon.

James Douglas Phillips, 58 years old, died at his home, on East Fifth street, at 12:30 Tuesday morning, after a serious illness of four weeks. He was born January 31, 1858, in Henderson county, Illinois. He came to Missouri with his parents, Mr. and Mrs. Thomas Phillips, in 1868.

He grew to manhood here and was married to Louella McDowell, daughter of James P. McDowell in 1880. Three children were born to this union, Arthur A. of Guthrie, Okla.; Earl C. of St. Joseph, Mo., and Harold D. at home, all of whom were with him during his illness. He is survived by his wife, children, a brother, T. M. Phillips of Enid, Okla.; a sister, Mrs. Chas. McDermet of Ringwood, Okla., and four grandchildren.

Mr. Phillips was a charter member of the Knights and Ladies of Security, council No. 881, and was the first member of their number to be called home. The lodge will have charge of the services.

The funeral services will be held at the Christian church Wednesday afternoon at 2:30 o'clock. The Rev. C. Emerson Miller will conduct the services. Burial will be in Miriam cemetery.

TRACK MEN WORKING

FIRST NORMAL TRAINING LAST NIGHT AT STATE NORMAL.

MANY IN BASEBALL NOW

Will Get in Training in That Way—Records and Winners in Last State Meet Given.

The first definite track work began last night at the State Normal school with Director Walter Hanson in charge while George Palfreyman was giving his attention to thirty candidates for baseball on the same field. Several men are out for both sports but will give their principal attention to baseball at this time and thus get into condition.

Wood Adams is a good example of this. He will catch and pitch on the team. But he is sure to be used in track for he can put the 16-pound shot 39 feet. The new record hung up by Marr of Drury last year was 39 feet and 6 1/2 inches. Adams is also expected to place in the broad jump and hurdles.

Here are the other records of the state track meet last year at Springfield which the Maryville track and field candidates will have to go out to beat. The first and his time are the only records given in each event.

CZERWONKY MASTER

MINNEAPOLIS SYMPHONY ORCHESTRA'S CONCERTMASTER.

GREAT VIOLINIST AT 18

One of Leading Men Upon Violin Will Play During Festival April 13 and 14.

Among the artistic group of soloists who are to appear with the Minneapolis Symphony orchestra at the Maryville music festival, April 13-14, is Richard Czerwonky, violinist and concertmaster of the orchestra. But few violinists have established a firmer or greater reputation than this young artist, whose fame is as well known in Europe as well as this country.

Leopold Schmidt, the famous critic of the "Berliner Tageblatt," showed a true prophetic instinct when he wrote of Mr. Czerwonky's first appearance in Berlin in 1906: "In the Singakademie hall last night, a young boy of about 18 celebrated his first triumphs, playing Bruch's 'Scotch Fantasia' and the

RICHARD CZERWONKY, Concertmaster of the Minneapolis Symphony Orchestra.

Hungarian Concerto by Joachim, assisted by the famous Berlin Philharmonic orchestra.

"A violinist, Richard Czerwonky, whom we will surely meet as a great master, in a short time. I think he is a genius. Under the direction of Moser and Joachim he has grown to an excellent artist already. His tone is pure and full of expression and his virtuosity eminent. His appearance is a most pleasant one, and his violinistic gifts speak from each phrase. His playing last evening entitles him to the most famous future."

Herr Schmidt's prophecy has been fulfilled, for since then Mr. Czerwonky, in a concert tour through Germany, Austria, Russia, Holland and Scandinavia, and since coming to this country seven years ago, has established a reputation second to none.

Seventh Season at Minneapolis. While other symphony orchestras in this country have made change after change of concertmaster in the past few years attempting to secure the right kind of man, the Minneapolis Symphony orchestra has been fortunate in having an artist to fill this difficult position, whose equal is not to be found in America today.

Conductor Must Have Such Men.

With all due respect to, and generous acknowledgement of the conductor's genius and the guarantor's generosity it would be impossible to achieve such results as are achieved by the Minneapolis Symphony Orchestra, the famous organization which comes to Maryville on April 13 and 14 without the co-operation of the many real artists in its ranks.

And perhaps comparatively few people realize the importance of the concertmaster's post in a great orchestra. He must be responsible, to a certain degree, for the share the first violin section has in each concert, his interpretation, his method, his technique are all guides, more or less, to his choir.

And often it happens that a symphonic score is written with a first violin solo, in which case he must assume the role of virtuoso for the time being. All of these qualifications are to be found in Richard Czerwonky, who has been concertmaster of the orchestra for some seven years, although he is still a young man.

CARRANZA REFUSES

EL PASO HEARS DISTURBING R. R. RUMORS.

NO OFFICIAL REPORT

Word to Texas City Says De Facto President Withholds Use of Railways.

Special to The Democrat-Forum. El Paso, March 28.—Carranza has refused the request of the United States to permit troops in pursuit of Villa to use the Mexican Northwestern railway for the transportation of supplies.

Carranza has notified Gavra not to allow the passage over this line of any shipment of food, ammunition and supplies for the Americans. The constitutional leader has also barred the United States authorities and Pershing from the use of the telegraph lines to and from Juarez.

The action caused a wave of pessimism to sweep over the entire border.

Funston Refuses to Comment.

San Antonio, March 28.—General Funston refused to comment on Carranza's refusal for the use of Mexican railways, but it was intimated at headquarters that the Mexican situation had been made more serious by the action. Funston's refusal is thought to be based on the fact that he has not been officially informed from Washington of the de facto president's refusal.

No Confirmation of Refusal.

Washington, March 28.—There was no official confirmation today of dispatches carried out of El Paso that Carranza decided to bar American authorities from using the railroads. It was stated, however, in official circles that such a move would occasion no surprise. It was pointed out that if they intended to allow the use they would have done so immediately upon the entrance of the troops. It is generally admitted the refusal will widen the breach between the two countries. The war department officials said, however, they would not interfere with the expedition.

More than eight million dollars to defray the expenses of the expedition and to provide for recruiting the army to war strength were passed by the house today.

"DRYS" AND WOMEN ASIDE

House Judiciary Committee, After Stormy Session, Votes Not to Consider Them.

Special to The Democrat-Forum. Washington, March 28.—Woman's suffrage and nation-wide prohibition were set aside for the present session by the house judiciary committee today. The committee, after a stormy session, voted to postpone indefinitely the consideration of the resolution providing amendments for suffrage and prohibition.

THE LEGISLATIVE CAMPAIGN.

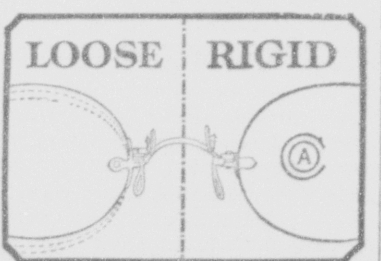

We hear a great deal of talk in Missouri just now about "candidates for state offices"—and when you come to go into details you find that the state offices whose ineffective manning would make all other state officials inefficient are not in the talkers' minds at all. We mean the positions of senator and representative in the next legislature.

It is time for a general movement to secure men of the highest type for the next general assembly. Occasionally some jaundiced individual holds up Missouri legislatures to criticism and reflects wittingly on their intelligence and patriotism. The only wonder is that so many legislators of light and leading are found at Jefferson City year after year, in view of popular indifference to the supreme importance of the legislative campaign.

tance of the legislative campaign. After the governor, attorney general and auditor are chosen there is no state office whose possibilities, in the light of public good or public evil, are so great as those of senator and representative. It is an amazing thing to look over the session laws of the last two Missouri general assemblies and note the constructive acts which are contained in them, in view of the very small amount of popular attention which is habitually given to the tremendously important matter of the legislative campaign.

In past years, in many states, membership in the legislature was in bad repute because of the traffic in United States senatorships. Particularly was this true in the great Republican states, where the protected interests "operated" in legislative votes as they did in wool or steel or rubber. This is all of the past now. Legislators go to the capitol to legislate—not to make or unmake senators. The office makes a straight appeal today to the ambition of the citizen desirous to serve the commonwealth by helping to make just and progressive laws.

A distinct legislative program is already shaped in the popular mind in Missouri. The people know what they want. Already the citizens of every one of Missouri's 114 counties ought to be giving their attention to the all-important matter of getting men of the highest intelligence and character to come out for legislative nominations. They should act before it is too late.—The St. Louis Republic.

WHO IS NIGHT WATCHMAN?

Commercial Club Officers Say John Coleman's Term Lasts Till April 11.

Who is the merchants' night watchman? John Coleman, who has been doing the work and who is still wanting his job, found last night another man, J. H. Killion, out attending to the duties of that job for the merchants who had signed his paper.

Coleman was selected by the merchants last spring, and makes a report each month to the board of directors of the Commercial club. Coleman is still the regular night watchman, according to the officers of the Commercial club, as his term will not expire until the regular meeting night of the club, to be held in April.

DON'T NEGLECT KIDNEYS

Swamp-Root, Dr. Kilmer's Prescription, Overcomes Kidney Trouble.

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

The kidneys should receive some assistance when needed. We take less exercise, drink less water and often eat more rich, heavy food, thereby forcing the kidneys to do more work than nature intended. Evidence of kidney trouble, such as lame back, annoying bladder troubles, smarting or burning, brickdust or sediment, salivary complexion, rheumatism, maybe weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp-Root. There is nothing else like it. It is Dr. Kilmer's prescription used in private practice and it is sure to benefit you. Get a bottle from your druggist.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Maryville Daily Democrat-Forum.

The Lily is a Simple Cream Separator

IF you ever owned a cream separator before you knew the Lily, you will appreciate Lily simplicity. It used to be tighter this, and move that—adjustments that you never felt quite safe in making yourself. Although even a wasteful separator was much better than hand skimming, you were far from satisfied.

Most of those adjustments are now done away with. There is only one place where wear affects the work of the Lily and that is on the hardened steel point that carries the weight of the whirling bowl. And since this point is made of finest tool steel, tempered like a fine razor, you can see that the adjusting will not take much of your time.

Go to the dealer and see this feature and the many others—the simple splash oiling system, the easy operation, the ease of cleaning. The Lily is a real cream separator.

A CHILD'S TONGUE SHOWS IF LIVER OR BOWELS ARE ACTIVE

If Cross, Feverish, Sick, Bilious, Give Fruit Laxative at Once.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste, and it thoroughly cleanses the tender little stomach, liver and bowels without gripping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, Mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When this little system is full of cold, throat sore, has stomach ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."
